FINASTRA

The power of an
open payments ecosystem

Innovation is rarely a one-person job. Connect to an ecosystem delivering the latest developments in payments.

Discover how an open ecosystem accelerates adoption of new technologies from immediate/real-time payments, open APIs, blockchain and artificial intelligence.

Finastra is unlocking the power of finance for everyone by creating a platform for open innovation in the world of financial services. To find out more, visit finastra.com

Data-led insights

Access, gather, analyze and store massive quantities of data and then evaluate this information to derive business intelligence and insights.
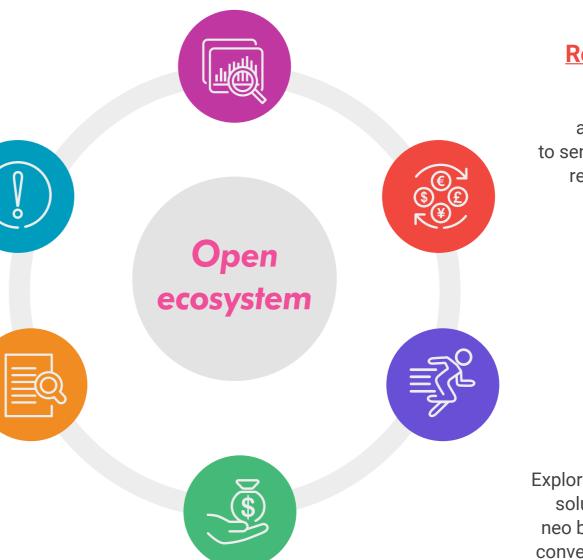

Fraud prevention

Discover applications that can detect fraudulent transactions in real-time, reduces the number of false positives and fraud management time.

Real time payments

Allow your consumer and business customers to send and receive money in real time, across borders.

Open ecosystem

Artificial intelligence

Leverage an AI engine that understands documents and images, extracts data and synthesizes it into actionable payment information.

Digital services

Explore modulated end-to-end solutions for banks to have neo bank facilities, to deploy, convert and scale their digital services to B2B & B2C.

UX and CX enhancements

Discover CX enhancements like easy and intuitive payment initiation screen for the small-medium-business in the USA to send USD Fedwire payments.
